

I have a

Access to

WB4699

Optimal economic uses:

- Grain only
- Grain plus limited grazing
- Heavy grazing plus grain
- Pasture graze-out

• Developer: WestBred - Bayer Crop Science
 • Pedigree: Undisclosed
 • Year Released: 2019
 • Variety Protection: PVP, CSO

Characteristics

Barley yellow dwarf	Moderately Resistant
Hessian Fly	Intermediate
Leaf Rust	Moderately Resistant
Stem Rust	N/A
Stripe Rust	N/A
Powdery Mildew	Resistant
FHB (Scab)	Intermediate
Septoria Leaf Blotch	N/A
Soilborne mosaic	Moderately Resistant
Tan Spot	Moderately Resistant
Wheat Streak Mosaic	Intermediate
Acid Soil Tolerance	N/A
Coleoptile Length	N/A
Drought Tolerance	N/A
Early Spring Greenup	N/A
Fall Ground Cover Capability	N/A
Fall Grazing Potential	N/A
Height	Short
Maturity (Heading Date)	Medium-Late
Protein	N/A
Quality: Baking	Good
Quality: Milling	Good
Seed Size	N/A
Shattering Reputation	N/A
Straw Strength	N/A
Test Weight	Good
Tillering	N/A
Winterhardiness	Very Good
Overall Yield Record Where Adapted	N/A
Wheat Quality Council Tested	N/A

Comments:

WB4699 is a hard red winter wheat from WestBred-Bayer, positioned along the I-35 corridor and to the east.

WB9699 holds winter dormancy well, has a very good overall disease package, and has excellent yield potential. WestBred recommends managing fertility to maximize grain protein.

Strengths:

-

Weaknesses:

-

Special notes on cultural practices:
